

[Background]

Action Research for Community Adaptation in Bangladesh (ARCAB) is a long term action Research Programme on Community Based Adaptation (CBA) to

climate change in 5 major ecosystems in Bangladesh. The programme is jointly managed by Bangladesh Centre for Advanced Studies

(BCAS) and

the International Institute for Environment and Development (IIED).

ARCAB is organizing the 2nd national CBA conference in 14-15th March 2014 in order to exhibit the theories and practices of CBA in Bangladesh. The three day event will provide knowledge sharing spaces among academics, practitioners, researchers and CBA communities. The objectives are:

- Bring CBA stakeholders together
- Capture the latest learning of CBA
- Disseminate the lessons learnt

The three day event will feature 4 plenary sessions and 8 parallel sessions on different aspects and themes of CBA.

Abstracts can be submitted on following themes:

[Themes]

Water, Sanitation and Health
Agriculture
Sustainable Livelihoods
Gender, Equity
Disaster Risk Reduction
Forest and Coastal Systems
Drought and Flood Management
Cities

From Divisional to National

Over the last one year ARCAB has organized divisional CBA conferences in all seven divisions of Bangladesh. The purpose of the divisional CBA conferences is to collect local level CBA practices and evidence in association with a regional university and one international action partner. The National CBA conference is the culmination of the divisional processes and reflects the local level voices to the national audiences and policy makers
