

Project Brief

Capacity strengthening of multi-actors to limit climate change impacts and enhance resilience (CAP-RES)

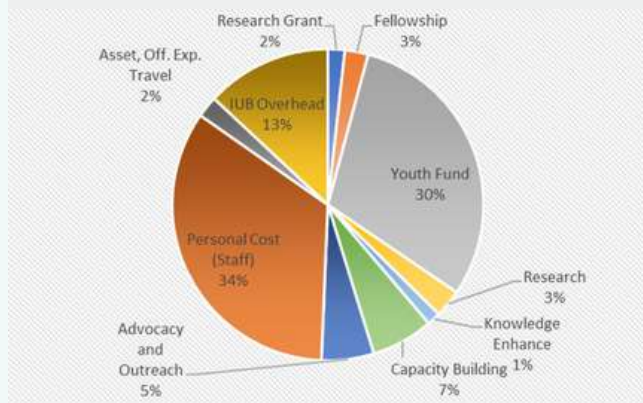

Project Goal/outcome

Enhanced capacity of the multi-actors at local, national, and regional levels to limit climate change impacts and strengthen Resilience

Objective:

1. Create an enabling environment and foster individuals to enhance their knowledge of climate change issues and develop their problem-solving skills
2. Generate factual evidence from local practices to scale up at the global level
3. Improve institutional efficiency and effectiveness in decision-making and putting into practice in climate intervention

Budget Segregation in different area

Project Overview

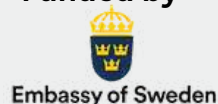

Project Duration

48 Months
(01 Jan'23 to 31 Dec'26)

Total Budget

12 Million SEK
(120 Million BDT)

Funded by

Implementing By:

Activities

Research Grant and Fellowship

1. Mentorship and Financial Support to the Students and Young Researchers for Conducting Research
2. Grant for Masters in Climate Change and Development Programme
3. Internship Opportunities

Education, Knowledge, and Awareness Through Youth Program

1. ICCCAD Youth Fellowship Programme (previously RISE)
2. Youth Fund to
 - Incubate ICCCAD Youth Fellow Participants
 - Youth Fund for Sponsoring Innovative Idea/Campaign Competitions for University Clubs
 - Youth Fund to Catalyze Youth Projects

Research, network, and knowledge generation

1. Research on Climate Change Related Issues
2. Publishing Special Issues at Climate Tribune
3. Partnership and knowledge exchange with Swedish Universities
4. Establishing Knowledge sharing and cross-learning platforms

Capacity Building

1. Local Government Representatives and Local Communities
2. National Level Government Officials and CSOs
3. Policymakers and Decision makers through Learning Hub Events (LHE)
4. LUCCC Partners and LDC Group
5. LLA short course for national Participants

Advocacy

1. Conducting Policy Dialogues
2. Organizing side events at COP

Output/ The Estimated Beneficiary Number (Direct)

Financial Support to students and Young Researchers for research on Climate Change-related issues

**Total 27,000,000 BDT
60 Research & 64 Ideas**

120 Youth individual

Education and Awareness Raised about Climate Change amongst Youth

Capacity building of students and Young Researchers with the necessary knowledge and skills on LLA, LLD & project management

**76 Student & Young Researcher,
16 Interns and 32 organizations**

120 Government people

Policy Makers are sensitized and informed on the Co-generation of Knowledge for supporting effective LLA action and addressing L&D

Peer-reviewed journal articles, short pieces, policy briefs, articles, etc. published clarifying conceptual, operational, and policy aspects of different domains of climate change

50 Publications

480 People

Strengthened Capacity of Government representative, Policy actor, CSOs, and LUC Partners

Enhanced Knowledge base for upscaling LLA Practices and addressing L&D

04 Research
